**Subject Intel Datacenter SSD User-Data Retention Capability**

Dear Valued Customer,

The user-data retention capability of Intel's Data Center Solid State Drive at maximum endurance follows the enterprise-class requirement specified in JESD218 as 3 months at 40C. For the low-cycled or un-cycled use conditions, which are outside of the scope of JESD218, the Intel Data Center SSD is rated 5-year user-data retention.

Please note that the above specifications are applicable to Intel Data Center SSD

- DC S3700
- DC S3500

Please contact your Intel representative should you have any additional questions about Intel SSD.

Sincerely,

Kawa Chang
